Subject: RE: TEPM Conference topic - air monitoring effort

Good morning,

It seems the ozone monitor in Sheboygan County's Kohler-Andre State Park is the particular concern.

Hello Colleagues:

FYI- here is what I received so far from Lissa regarding the Wisconsin's air monitoring effort changes.. Once I receive additional info from Nathan I will forward.

Thanks,

Hi Monika,

I just asked Nathan to also work with you on this topic so that I am sure I get all the air lingo correct, and he is happy to send you more info this afternoon. He's at the air site now.

If you need some preliminary info for this morning's TEPM planning call, I have these links that give an overview of the issue:

<http://progresssheb.wixsite.com/so/7MOaGHrY?cid=688bca87-1a6f-4a7d-b332-7464f96df2cf#/main>

<http://www.gklaw.com/NewsUpdatesPressReleases/EPA-has-proposed-certain-portions-of-the-state-of-Wisconsin-to-be-nonattainment-for-the-2015-ozone-standards.htm>

<https://www.usnews.com/news/best-states/wisconsin/articles/2017-11-21/legislators-to-take-comments-on-relaxing-air-pollution-rules>

Hope that helps for now, but Nathan is more on top of this than I am! He'll have more for you this afternoon.

Subject: TEPM Conference topic

Hi Lissa,

On one of the TEPM planning calls you brought up an issue with Wisconsin's air monitoring network, and that it may be scaling down in the near future. Would you elaborate on that issue for us? Reduction in which air monitors are you most concerned with, and where? I want to make sure I am characterizing the issue correctly to the appropriate staff/management, so your concern is addressed appropriately. We may be able to address this issue at the next Region 5 air call as well.

Thank you,
